

Topeka Police Department Is Proud to Host a Forensic Mapping Class Presented by CSI Mapping Inc.

This 40 hour Forensic Mapping class runs May 14-18, 2007, 8AM—5PM. Featuring Sokkia Instruments (all brands are welcome), MapScenes Pro 2006 desktop software and the Evidence Recorder 3 and 4 evidence collection systems.

The first two days will be spent inside focusing on theory, and functions of CAD software. Wednesday through Friday will be 'hands-on' exercises outside (weather permitting) utilizing your total station by gaining valuable field experience. Computer based daily assessments will be given each day in place of a final exam. This new approach to evaluating student performance is more productive and provides the student more positive feedback.

ACTAR Approved for 30 CEU's
